Contents of Volume 45

Number 1

1 Sound Transmission in Stored Grain
ROBERT HICKLING & WEI WEI (USA)

9 Horizontal Ray Paths of Underwater Sound from Heard Island to Ascension Island
JIANGUO YAN & KANG K. YEN (USA)

19 The Scattering of a Transient Acoustic Wave Due to a Rigid–Elastic Coupling of Two Half-Planes
S. ASGHAR, M. ASIF SADIQ & BASHIR AHMAD (Pakistan)

29 The Influence of Inclined Buildings on Road Traffic Noise
C. H. CHEW (Singapore)

47 Dynamic Stability of a Moving Rectangular Plate Subject to In-Plane Acceleration and Force Perturbations
H. P. LEE & T. Y. NG (Singapore)

61 An Inverse Eigenvalue Problem of Symmetric Multilayered Media
WU QUNLI (Singapore)

Technical Note

81 Improvement of Acoustic Conditions for Speech Communication in Classrooms
E. SALA & V. VILJANEN (Finland)

93 Book and Journal Reviews

95 Calendar

Number 2

97 Dynamic Behaviour of a Cracked Cantilever Beam
G. BAMNIOS & A. TROCHIDES (Greece)

113 A Parabolic Equation for Sound Propagation in Two Dimensions over Any Smooth Terrain Profile: The Generalised Terrain Parabolic Equation (GT-PE)
R. A. SACK & M. WEST (UK)

131 Sound Insulation by Concrete Panels with Cylindrical Circular Hollows
ROMAN YU. VINOKUR (USA)

139 A Psychological Evaluation Method for Fluctuating Random Noise Based on Fuzzy Set Theory
SHIZUMA YAMAGUCHI, YUICHI KATO, KENSEI OIMATSU & TETSURO SAEKI (Japan)

155 A Tutorial on the Non-Linear Progressive Wave Equation (NPE). Part 2. Derivation of the Three-Dimensional Cartesian Version without Use of Perturbation Expansions
P. CAINE & M. WEST (UK)

167 Axisymmetric Dynamic Stability of an Annular Plate Subject to Pulsating Conservative Radial Loads
H. P. LEE & T. Y. NG (Singapore)

Technical Note

181 Utilizing Optimised Panel Damping Treatments to Improve Powertrain Induced NVH and Sound Quality
S. M. BEANE, M. M. MARCHI & D. S. SNYDER (USA)

189 Announcements

190 Calendar

Number 3

193 Analysis of Interior Acoustic Fields Using the Finite Element Method and the Boundary Element Method
S. KOPUZ (Turkey) & N. LALOR (UK)

211 Identification of Damping and Stiffness of Smart Structures Incorporating ER Fluids
M. J. MAHJOOB, H. R. MARTIN & F. ISMAIL (Canada)

227 Calculation of the Mean and Maximum Mobility for Concrete Floors
A. T. MOORHOUSE & B. M. GIBBS (UK)

247 On the Application of the Beta Distribution to Gear Damage Analysis
D. C. D. OGUAMANAM, H. R. MARTIN & J. P. HUISSOON (Canada)

263 Noise Attenuation of Structures against Impulses from Large Calibre Weapons or Explosions
R. PÄÄKKÖNEN (Finland)

279 Announcement

280 Calendar

Number 4

283 The Sound Field within a Rigid Porous Layer
KEITH ATTENBOROUGH, JAMES M. SABATIER & CARL FREDERICKSON (USA)

297 Acoustical Performance of the Grand Hall of the Ataturk Cultural Center
S. Y. DEMIRKALE & A. BUDAK (Turkey)

321 Identification of Cylindrical Shells with Sets of Reinforcing Ribs by Their Acoustic Bragg Diffraction (Grating) Patterns
DONALD BRILL & GUILLERMO C. GAUNAURD (USA)

335 Material Parameter Selection in Polyester Fibre Insulation for Sound Transmission and Absorption
P. P. NARANG (Australia)

359 Experimental Investigation of Flow-Induced Acoustic Oscillations in a Piping System with Closed Branches
MIROSLAW W. MEISSNER & MIECZYSLAW R. CZECHOWICZ (Poland)

Technical Note

377 Measurements of the Performance of an Acoustical Calibration Duct
S. A. WATKINS (UK)

385 Book Review

387 Calendar
